cisco Networking Academy

20 Jul 2024

Dear Josue Ruiz,

Congratulations on completing the Cisco® DevNet Associate course as part of the Cisco Networking Academy® program. This hands-on, lab-oriented course has prepared you for tremendous career opportunities.

You have achieved instructor level credential for completing the DevNet Associate course, and acquired competencies that include the following:

- Use basic Python programming and Linux skills.

- Implement a development environment using DevNet resources.

- Use software development and design best practices.

- Create REST API requests over HTTPs to securely integrate services.

- Explain the processes and devices that support network connectivity.

- Use current technologies to deploy and secure applications and data in a cloud environment.

- Compare software testing and deployment methods in automation and simulation environments.

- Compare Cisco platforms used for collaboration, infrastructure management, and automation.

In today's world, technical literacy is more important than ever, and Cisco is proud to provide you with the knowledge and skills necessary to build and maintain digital networks.

Keep up the great work and best wishes for continued future success.

Sincerely,

Chuck Robbins
Chairman and Chief Executive Officer
Cisco
